

## **Content Outline**

Destiny Davis

### **Project Title:** Red-Eared Slider Website

I would like to build this site as multi-page, with topics related to the background, habitat, behavior, and adopting as a pet. The navigation would be at the top as usual, for easy access. There is enough content to design around the information provided (images, fun facts, etc).

**Home Page/Introduction** – Introduce basic red-eared slider background information, including etymology and taxonomy, and a pop culture reference to get the reader's attention. Summarize the information that will be introduced in the different tabs (Physical Description and Sexual Dimorphism, Habitat, Behavior, Adoption)

### **Physical Description**

#### **Habitat**

#### **Behavior**

#### **Adoption**

**Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
